

Description

VA 390 whip antenna is designed for assembly on the car roof or stationary installation with antenna counterpoise (steel ceiling, external antenna counterpoise, etc.).

Technical Specifications

Type	VA 390	
Frequency range	MHz	380 ÷ 395
Gain	dBi	2
Radiation pattern	omnidirectional	
Length of antenna radiator	$\lambda / 4$	
Polarization	vertical	
Impedance	Ω	50
VSWR	< 1.5	
Maximum input power	W	50
Material	stainless steel, brass, plastic	
Weight with cable	kg	0.2
Length of cable	m	3.5
Mounting hole	mm	$\varnothing 8.5$
Connector type	BNC, TNC, N, FME – male
